Journal of Materials Processing Technology, 25 (1991) 351–352
Elsevier

Contents Volume 25

Vol. 25, No. 1

Study of forging design using slip-line fields
S.K. Biswas and M. Ramesh (Bangalore, India) 1
Prediction of the limit strains of sheet steel thermally and mechanically worked in relation to surface integrity changes: A theoretical model
A.G. Mamalis, A.P. Karafillis and N.M. Vaxevanidis (Athens, Greece) 15
Developments in the geometric modelling of an ERW pipe skelp
T.R. Walker and R.J. Pick (Waterloo, Ont., Canada) 35
Computer-aided assessment of debonds in laminates from shearographic fringe patterns
H.M. Shang, E.M. Lim and K.B. Lim (Singapore, Republic of Singapore) 55
Laboratory simulation of seamless-tube rolling
L.N. Pussegoda (Montreal, P.Q., Canada), R. Barbosa (Belo Horizonte, Brazil), S. Yue, J.J. Jonas (Montreal, P.Q., Canada) and P.J. Hunt (Sault Ste. Marie, Ont., Canada) 69
A parametric study for improving snapfit design
A.K. Soh and E.N. Lim (Singapore, Republic of Singapore) 91

Short Communication
The effect of workpiece speed and grinding-wheel condition on the thickness of white layers formed on EN. 24 ground surfaces
W.J. Tomlinson, L.A. Blunt and S. Spraggett (Coventry, U.K.) 105

Book Reviews 111
Diary Supplement 117

Vol. 25, No. 2

Investigation of the existence of a wrinkling-limit curve in plastically-deforming metal sheet
A.M. Szacinski and P.F. Thomson (Clayton, Vic., Australia) 125
A study into the laser spot-welding of sheet metals using oxygen and argon as assisting gases
B.S. Yilbas (Kayseri, Turkey), R. Davies (Birmingham, U.K.) and Z. Yilbas (Kayseri, Turkey) 139
Mechanisms of single-stroke deep-drawing with very high drawing-ratios: a Maslennikov-type process
C.M. Brakman, C.G. Borsboom and B.A. de Bruin (Delft, The Netherlands) 153
Electrocontact discharge trepanning of metals
M.A. Béjar (Santiago, Chile) 185
Monitoring the wear of sintered high-speed-steel tools
M.J.M. Barata Marques and R.M.D. Mesquita (Lisbon, Portugal) 195
Dynamic modeling for the prediction of surface errors in the milling of thin-walled sections
M.A. Elbestawi and R. Sagherian (Hamilton, Ont., Canada) 215

Short Communication
A note on the workability of porous-steel preforms
A. El-Domiaty and M. Shaker (Port-Said, Egypt) 229

Book Reviews 235
Diary Supplement 241

Vol. 25, No. 3

A knowledge-based system for process-sequence design in axisymmetric sheet-metal forming
S.K. Sitaraman (Endicott, NY, U.S.A.), G.L. Kinzel and T. Altan (Columbus, OH, U.S.A.) 247
Measuring the curvatures of machined surfaces using laser speckle interferometry
H.S. Shang, F.S. Chau, V.P.W. Shim, C.J. Tay and S.L. Toh (Singapore) 273
A personal statement concerning some topics for research attention in engineering mechanics for the next decade
W. Johnson (Cambridge, U.K.) 281
Factors affecting the inertial filling of die cavities in forging
G. Yiji and Z. Guang (Xi'an, P.R. China) 297
A study of temperature distribution in rails during intermittent cooling
J.G. Lenard (Waterloo, Ont., Canada) 303
The effects of pre-hardening on the laser transformation-hardening of tool-steel specimens
L.J. Yang, S. Jana and S.C. Tam (Singapore) 321
Analysis of defects during backwards extrusion by the rigid-plastic finite-element method
Wu Shichun and Dang Zhen (Xi'an, P.R. China) 333

Book reviews 341

Diary Supplement 345
